SAFETY DATA SHEET

Version 1.14

Revision Date 2022-12-01

TION 4: First aid measures		
General advice	:	No hazards which require special first aid measures.
If inhaled	:	If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician.
In case of eye contact	:	Remove contact lenses. Protect unharmed eye. If eye irritation persists, consult a specialist.
If swallowed	:	Keep respiratory tract clear. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician.
TION 5: Firefighting measu	res	
Flash point	:	232°C (450°F) Method: PMCC
Autoignition temperature	:	368°C (694°F)
Suitable extinguishing media	:	Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.
Specific hazards during fire fighting	:	Do not use a solid water stream as it may scatter and spread fire. Cool closed containers exposed to fire with water spray.
Special protective equipment for fire-fighters	:	Wear self-contained breathing apparatus for firefighting if necessary.
Further information	:	Standard procedure for chemical fires. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Fire and explosion protection	:	Provide appropriate exhaust ventilation at places where dust is formed.
TION 6: Accidental release	me	asures
Personal precautions	:	Avoid dust formation.
Environmental precautions	:	Local authorities should be advised if significant spillages cannot be contained. No special environmental precautions required.
Methods for cleaning up	:	Pick up and arrange disposal without creating dust. Sweep up and shovel. Keep in suitable, closed containers for disposal.
TION 7: Handling and stora	ge	
Handling		
Advice on safe handling	:	For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area.
Number:100000066562		3/12

	SAFETY DATA SHI
Ipha Olefin 30+	
ersion 1.14	Revision Date 2022-12
Advice on protection against fire and explosion	<ul> <li>Provide appropriate exhaust ventilation at places where dust is formed.</li> </ul>
Storage	
Requirements for storage areas and containers	Electrical installations / working materials must comply with the technological safety standards.
Advice on common storage	No materials to be especially mentioned.

### Engineering measures

Adequate ventilation to control airborned concentrations below the exposure guidelines/limits. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

### Personal protective equipment

Respiratory protection	:	If ventilation or other engineering controls are not adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure, a supplied-air NIOSH approved respirator may be appropriate. If exposure to harmful levels of airborne material may occur, a NIOSH approved respirator that provides protection may be appropriate, such as:. Air-Purifying Respirator for Dusts and Mists / P100. A positive pressure, air- supplying respirator may be appropriate if there is potential for uncontrolled release, aerosolization, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection.
Hand protection	:	The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.
Eye protection	:	Eye wash bottle with pure water. Safety glasses.
Skin and body protection	:	Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place.
Hygiene measures	:	General industrial hygiene practice.
SDS Number:100000066562		4/12

**SECTION 9: Physical and chemical properties** 

Version 1.14

## SAFETY DATA SHEET

Revision Date 2022-12-01

information on basic physi	cal and chemical properties
Appearance	
Form Physical state Color	: Wax., solid : solid : White
Safety data	
Flash point	: 232°C (450°F) Method: PMCC
Lower explosion limit	: No data available
Upper explosion limit	: No data available
Oxidizing properties	: no
Autoignition temperature	: 368°C (694°F)
Molecular formula	: Polymer
Molecular weight	: Not applicable
рН	: Not applicable
Pour point	: No data available
Boiling point/boiling range	: Not applicable
Vapor pressure	: No data available
Relative density	: 0.79 at 15.6 °C (60.1 °F)
Density	: 0.8 g/cm3
Water solubility	: Soluble in hydrocarbon solvents; insoluble in water.
Partition coefficient: n- octanol/water	: No data available
Viscosity, kinematic	: 9 cSt at 99°C (210°F)
Relative vapor density	: Not applicable
Evaporation rate	: 1
CTION 10: Stability and react	ivity
Reactivity	: No decomposition if stored and applied as directed.
S Number:100000066562	5/12

Ipha Olefin 30+	SAFETY DATA SHEE
ersion 1.14	Revision Date 2022-12-0
Chemical stability	: This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.
Possibility of hazardous re	actions
Hazardous reactions	: Further information: Stable under recommended storage conditions., No hazards to be specially mentioned.
Conditions to avoid	: No data available.
Materials to avoid	: May react with oxygen and strong oxidizing agents, such as chlorates, nitrates, peroxides, etc.
Other data	: No decomposition if stored and applied as directed.
ECTION 11: Toxicological info	rmation
Alpha Olefin 30+ Acute oral toxicity	: LD50 Oral: > 2,000 mg/kg Species: Rat
Alpha Olefin 30+ Acute inhalation toxicity	: No adverse effects expected
Alpha Olefin 30+ Acute dermal toxicity	<ul> <li>LD50: &gt; 2,000 mg/kg</li> <li>Species: Rat</li> <li>Information given is based on data obtained from similar substances.</li> </ul>
Alpha Olefin 30+ Skin irritation	: No skin irritation. Information given is based on data obtained from similar substances.
Alpha Olefin 30+ Eye irritation	: No eye irritation. Information given is based on data obtained from similar substances.
Alpha Olefin 30+ Sensitization	: Did not cause sensitization on laboratory animals. Information given is based on data obtained from similar substances.
Alpha Olefin 30+ Repeated dose toxicity	: Not classified due to data which are conclusive although insufficient for classification.
Alpha Olefin 30+ Genotoxicity in vitro	: Remarks: Not classified due to data which are conclusive although insufficient for classification.
DS Number:100000066562	6/12

SAFETY DATA SHEET

Version 1.14

Alpha Olefin 30+ Genotoxicity in vivo	: Remarks: Not classified due to data which are conclusive although insufficient for classification.
Alpha Olefin 30+ Carcinogenicity	: Remarks: No evidence of carcinogenicity
Alpha Olefin 30+ Reproductive toxicity	: This information is not available.
Alpha Olefin 30+ Developmental Toxicity	: This information is not available.
Alpha Olefin 30+ Further information	: No data available.
CTION 12: Ecological informa	tion
Ecotoxicity effects Toxicity to fish	: Aquatic toxicity is unlikely due to low solubility.
Toxicity to daphnia and other aquatic invertebrates	: Aquatic toxicity is unlikely due to low solubility.
Toxicity to algae	: Aquatic toxicity is unlikely due to low solubility.
Biodegradability	: Expected to be ultimately biodegradable
Elimination information (persis	tence and degradability)
Bioaccumulation	: This material is not expected to bioaccumulate.
Mobility	: No data available
Additional ecological information	: This material is not expected to be harmful to aquatic organisms.
Ecotoxicology Assessment	
Short-term (acute) aquatic hazard Long-term (chronic) aquatic hazard	<ul><li>This product has no known ecotoxicological effects.</li><li>This product has no known ecotoxicological effects.</li></ul>

The information in this SDS pertains only to the product as shipped.

SDS Number:100000066562

SAFETY DATA SHEET

Version 1.14

Revision Date 2022-12-01

Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

Contaminated packaging

: Empty containers should be taken to an approved waste handling site for recycling or disposal.

#### **SECTION 14: Transport information**

#### The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.

## US DOT (UNITED STATES DEPARTMENT OF TRANSPORTATION)

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

When shipment is offered for transport at or above 100°C it is regulated as:

UN3257, ELEVATED TEMPERATURE LIQUID, N.O.S., (ALPHA OLEFIN FRACTION, C30+), 9, Ш

### **IMO / IMDG (INTERNATIONAL MARITIME DANGEROUS GOODS)**

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

When shipment is offered for transport at or above 100°C it is regulated as:

UN3257, ELEVATED TEMPERATURE LIQUID, N.O.S., (ALPHA OLEFIN FRACTION, C30+), 9, III (232°C)

IATA (INTERNATIONAL AIR TRANSPORT ASSOCIATION) NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

When shipment is offered for transport at or above 100°C it is regulated as:

UN3257, 9: NOT PERMITTED FOR TRANSPORT

ADR (AGREEMENT ON DANGEROUS GOODS BY ROAD (EUROPE)) NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

When shipment is offered for transport at or above 100°C it is regulated as:
